# We Understand That You Have a Family— That's One More Good Reason to Join Ours

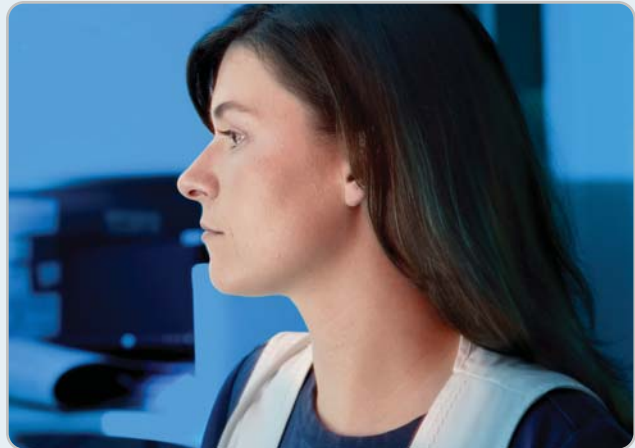

## METHODIST HOSPITAL

How do you juggle the responsibilities of your career and your family?

When you work for Methodist Hospital, there's help.

Methodist Hospital is an eight-time winner of the Family Friendly Award. That demonstrates our strong commitment to help you balance work and home life. Programs like flexible scheduling allow you to tailor your work hours to meet the needs of your family schedule. We also have a beautiful onsite childcare facility, where your kids can learn, play and grow while you're on duty.

We help protect your family, too, with outstanding medical, dental, disability and life insurances. Our retirement program features the highest-matching retirement fund in the region. We also offer a number of wellness programs that can contribute to your overall health, including our fitness center.

There are many exciting things happening here. The opening of the new South Tower late in 2007 is the highlight. It will house new state-of-the-art surgical suites. A new OB/GYN facility will follow. The constant growth of Methodist Hospital invites career growth for those who seek it. We help you prepare for your career advancement by funding your higher education. That helps your family, too.

We believe our salary and benefits package is unmatched. That's how we make certain we attract the best and brightest employees. If you're an exceptional person who can embrace our mission of superior care, please call Human Resources at Methodist Hospital. We'll do great things together.
